

Are you interested in the archaeology and early history of Douglas County, Kansas?

You can contribute to cultural heritage research by allowing us to survey your land or look at your collections.

A sketch of Lawrence, Kansas, circa 1854 (Digital Collections, University of Kansas Libraries).

WHO WE ARE

We are archaeologists from Augustana University in Sioux Falls, South Dakota. We are working with Douglas County, University of Kansas, and Kansas Historical Society to survey archaeological sites countywide.

WHAT WE DO

Our team will walk across the land and document any artifacts visible on the surface. We won't dig, and we won't collect any artifacts, unless you want us to. It's your land, and we won't do anything without your permission.
