

Property Viewer Quick Guide

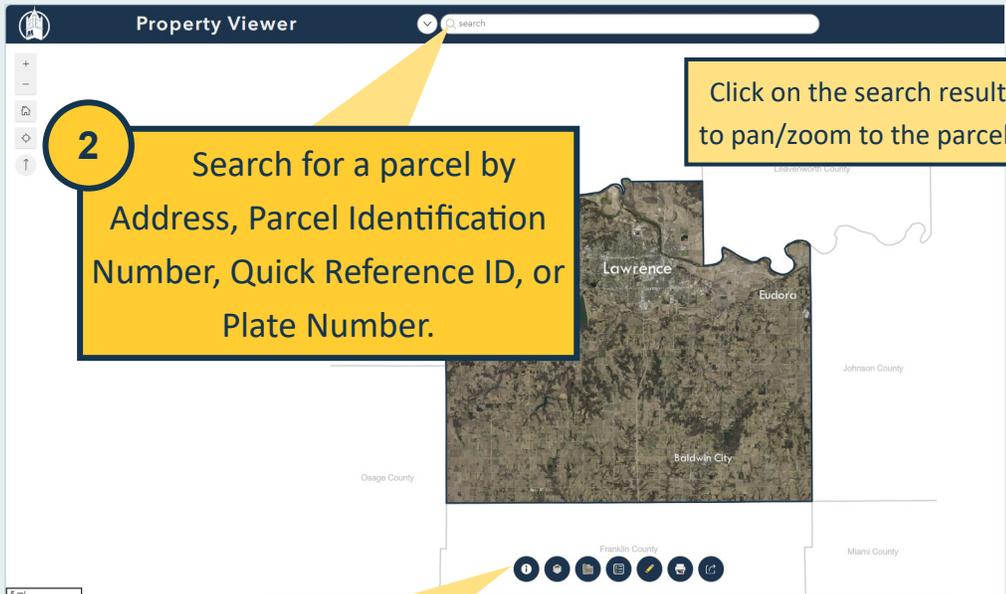

1 Go to gis.dgcooks.gov, scroll down, and select the **Property Viewer** card.

Property Viewer

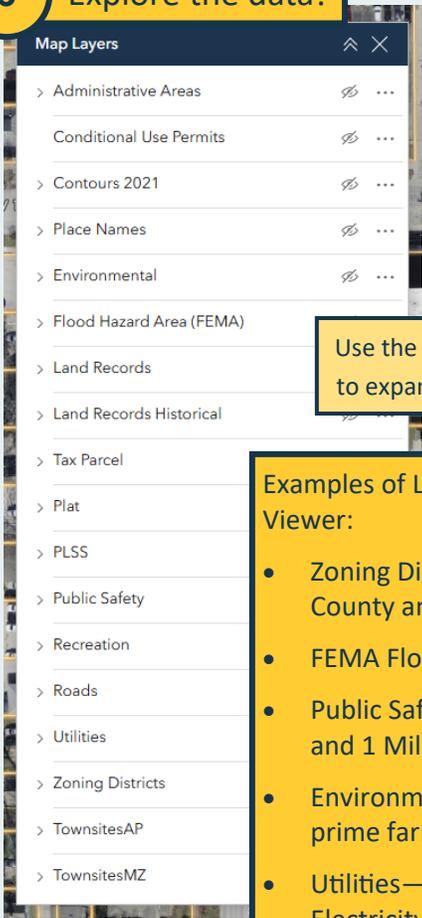

Learn more about your property.

2 Search for a parcel by Address, Parcel Identification Number, Quick Reference ID, or Plate Number.

Click on the search result to pan/zoom to the parcel.

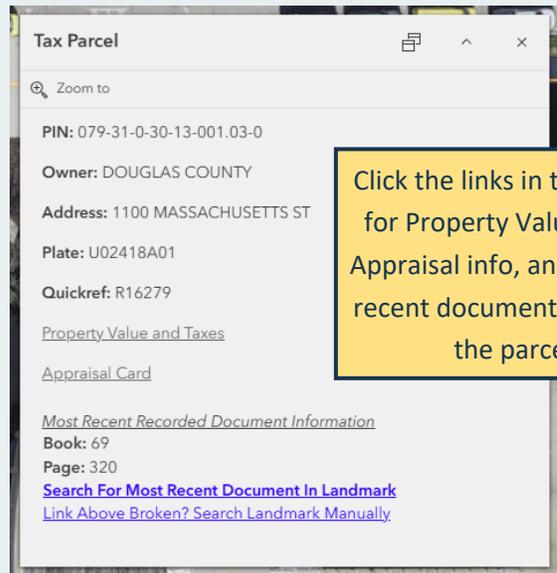

3 Explore the data!

Use the triangle on the left to expand the layer group.

Use these tools to access map layers, view the map legend, draw and measure on the map, and print your map at home.

- Examples of Layers featured in the Viewer:
- Zoning Districts for Douglas County and incorporated area
 - FEMA Floodplain data
 - Public Safety—Warning Sirens and 1 Mile Buffers
 - Environmental— Soil type and prime farmland classification
 - Utilities— Water supply, Electricity provider districts, and Solar Energy Suitability

Click the links in the pop-up for Property Value, Taxes, Appraisal info, and the most recent document related to the parcel.
