GOALS OF THE STUDY

- ✓ To develop and implement a process for documenting traffic and pedestrian stops
- ✓ To analyze the data to determine if any disproportionalities exist
- ✓ To formulate any solutions and assist in developing any necessary procedures and processes related to disproportionate minority contact

SCOPE OF WORK

Phase I

Planning

Phase II

Data Collection

Phase III

Analysis

PHASE I: PLANNING (SUMMARY)

✓ May 2019: Stop Data Collection Form Development

- Met with law enforcement agencies and sub-CJCC committee to determine what elements should be included in the stop data collection form
- Revised and finalized the stop data collection form

✓ August 2019: Guidelines and Training

- Developed a set of guidelines for collecting information
- Completed training sessions with senior command staff and/or officers in all five law enforcement agencies

✓ September 1, 2019: Data Collection Begins

✓ October 2019 – January 2020: Audit Process

- Checked for accuracy and consistency during the first four months of data collection (September 2019 – December 2019)
- Sent monthly memos to law enforcement agencies to identify any missing/unknown data, verify patterns and trends, and receive feedback on questions/comments
